REASONS FOR ALLOWANCE

Allowable Subject Matter

1. Claims 4 and 6 are allowed.
2. The following is an examiner's statement of reasons for allowance: As per claims 4 and 6, the prior art fails to teach the elements of the present invention as described in the claims, and specifically, wherein the rear surface of the drawer comprises a transparent area that is made of transparent material and through which the filter assembly can be seen and a non-transparent area that is made of non-transparent material and through which the water tank cannot be seen.

Senner et al. (US 6,355,177) teach a refrigerator with a main body having at least one refrigerant compartment (Figure 1), a filter assembly (Figure 1, item 55) disposed on the rear surface of the refrigerating compartment behind the drawer (col. 2, lines 12-16; and col. 4, lines 61-63), but fail to teach both a transparent area where the filter can be seen and a corresponding non-transparent area where the water tank cannot be seen.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
